LICENSING & REVIEW

Richard W. Fredenberg declares and states:

(1) That I am the inventor of the subject matter disclosed and claimed in the above-identified application for United States Letters Patent.

(2) That I made and conceived this invention while employed by WesDyne International LLC; That the invention is related to the work I am employed to perform and was made within the scope of my employment duties; and That the invention was made during working hours and with the use of facilities, equipment, materials, funds, information and services of WesDyne International LLC.

(3) That this invention was not made (conceived or first reduced to practice) under nor is there any relationship of the invention to the performance of any work under any contract of the National Aeronautics and Space Agency.

The undersigned inventor further declares that all statements made herein of his knowledge are true, and that all statements made on information and belief are believed to be true; and further, that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001, Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

Richard W. Fredenberg
